

# Food Group Fractions

**Directions:** Count the number of shaded boxes to see how many servings each kid has eaten. Then, write the correct fraction, reducing if necessary.

**Example:** How many glasses of water has Juan drank today?

1. How many servings of fruit has Julia eaten today?

2. How many servings of veggies has Tyler eaten today?

3. How many glasses of water has Sarah drank today?

4. How many servings of grains has Karly eaten today?

5. How many servings of protein has Hudson eaten today?

6. How many servings of dairy has Jasmine had today?

7. How many servings of fruit has Zac eaten today?

8. How many servings of veggies has Tim eaten today?

# ANSWER KEY

**Directions:** Count the number of shaded boxes to see how many servings each kid has eaten. Then, write the correct fraction, reducing if necessary.

**Example:** How many glasses of water has Juan drank today?

1. How many servings of fruit has Julia eaten today?

2. How many servings of veggies has Tyler eaten today?

3. How many glasses of water has Sarah drank today?

4. How many servings of grains has Karly eaten today?
